

PROGRAMAÇÃO WEBII

1

Instalação Node.js

Windows10

Instalando Node no Windows10

■ Acessar o site:

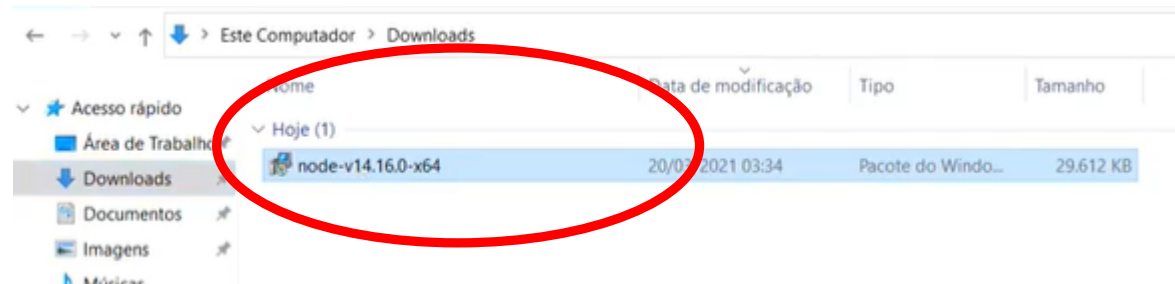

<https://nodejs.org/>

■ Selecione a versão LTS:

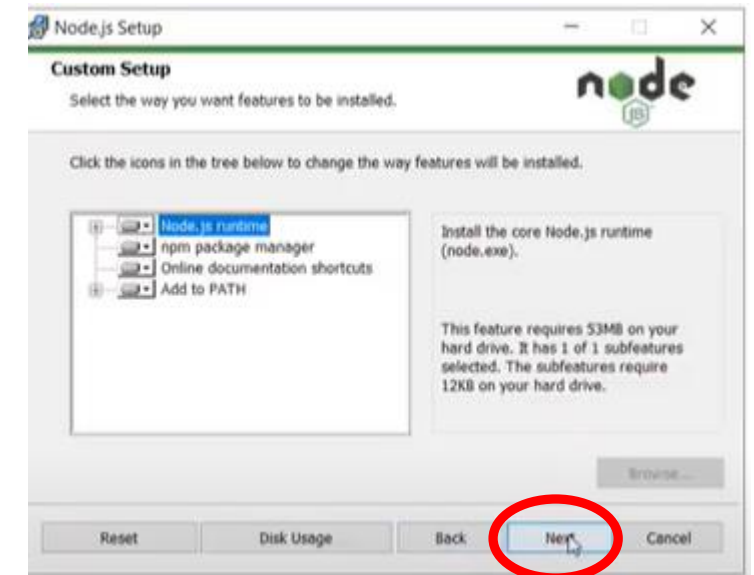

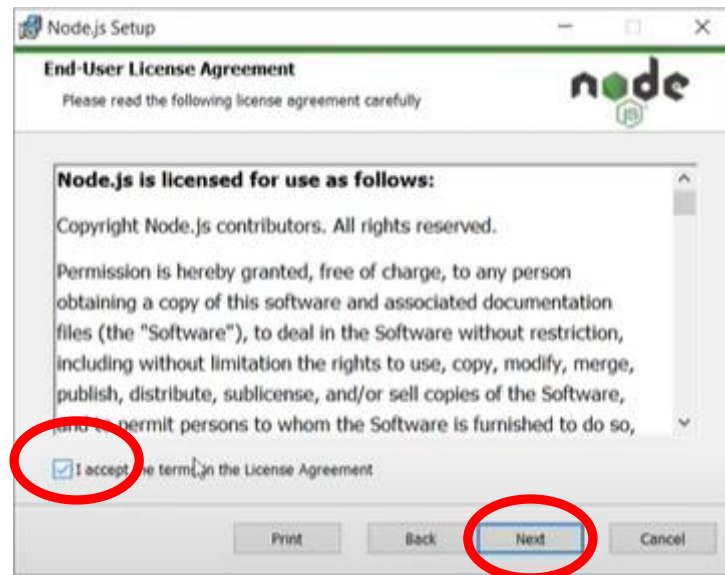

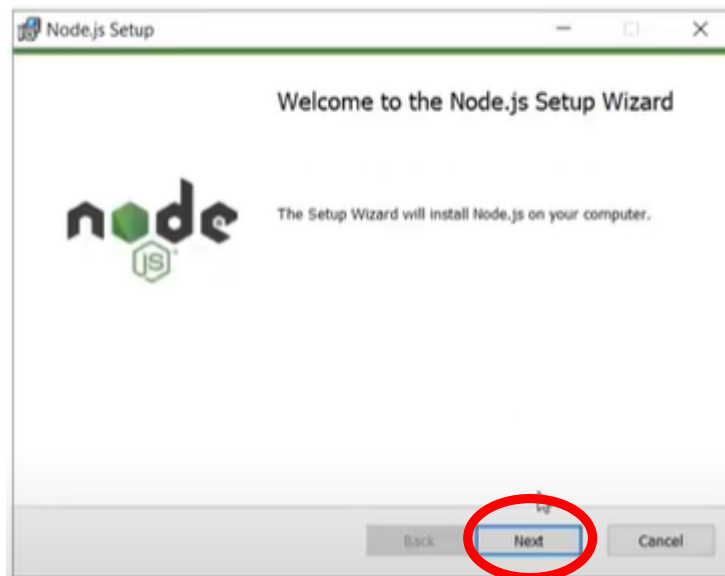

Instalando Node no Windows10

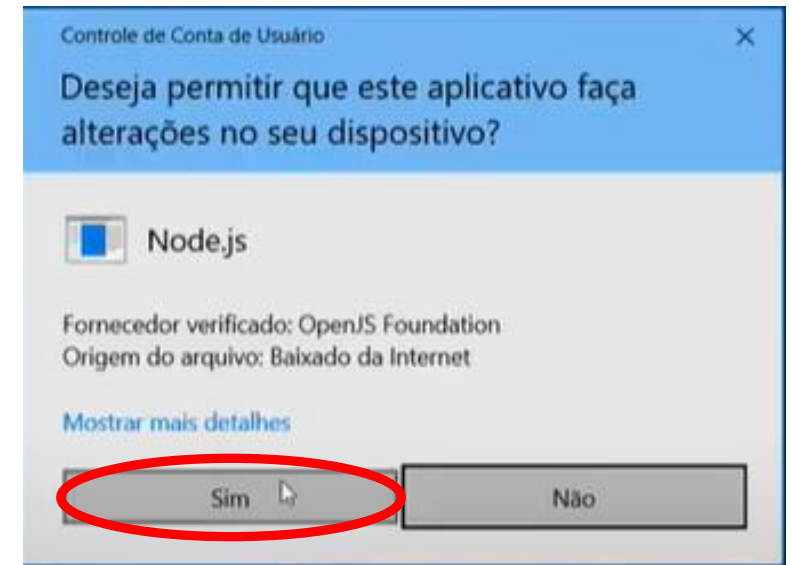

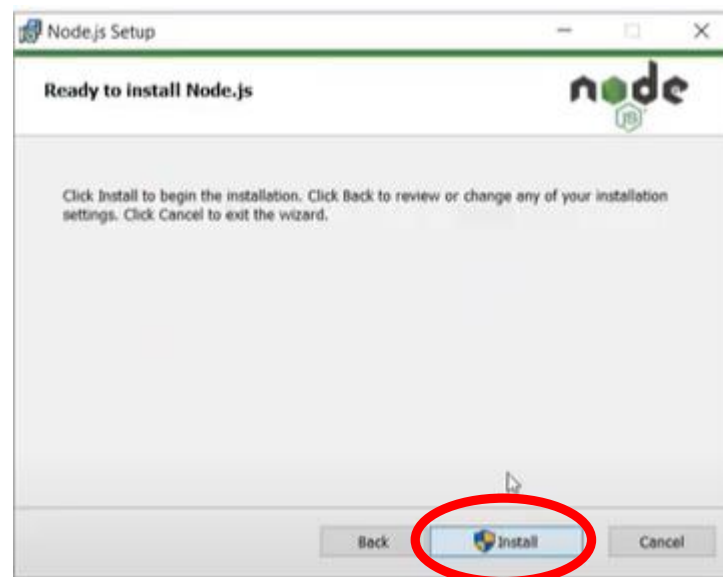

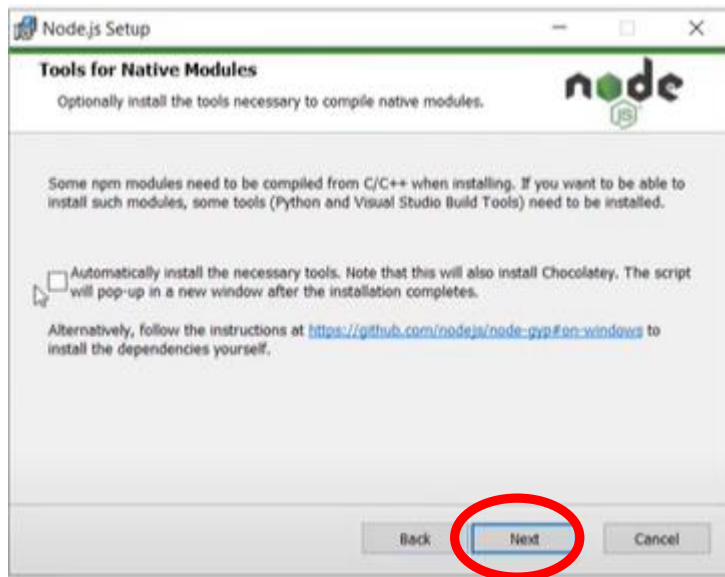

- Ir na pasta de download
- Clicar 2x no arquivo

Instalando Node no Windows10

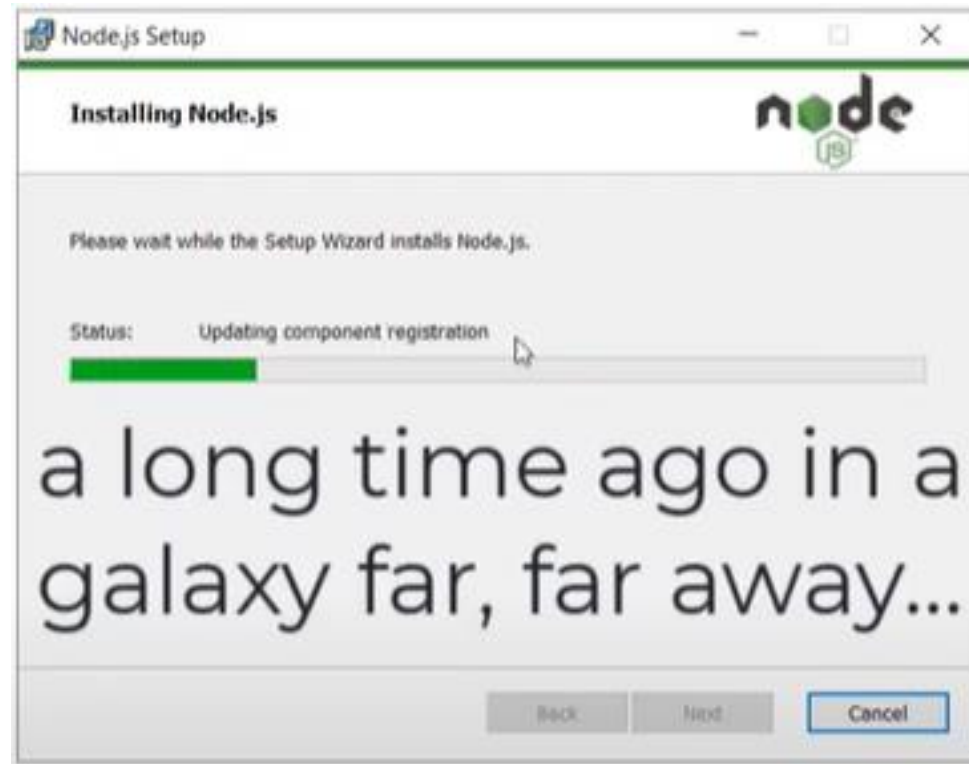

Instalando Node no Windows10

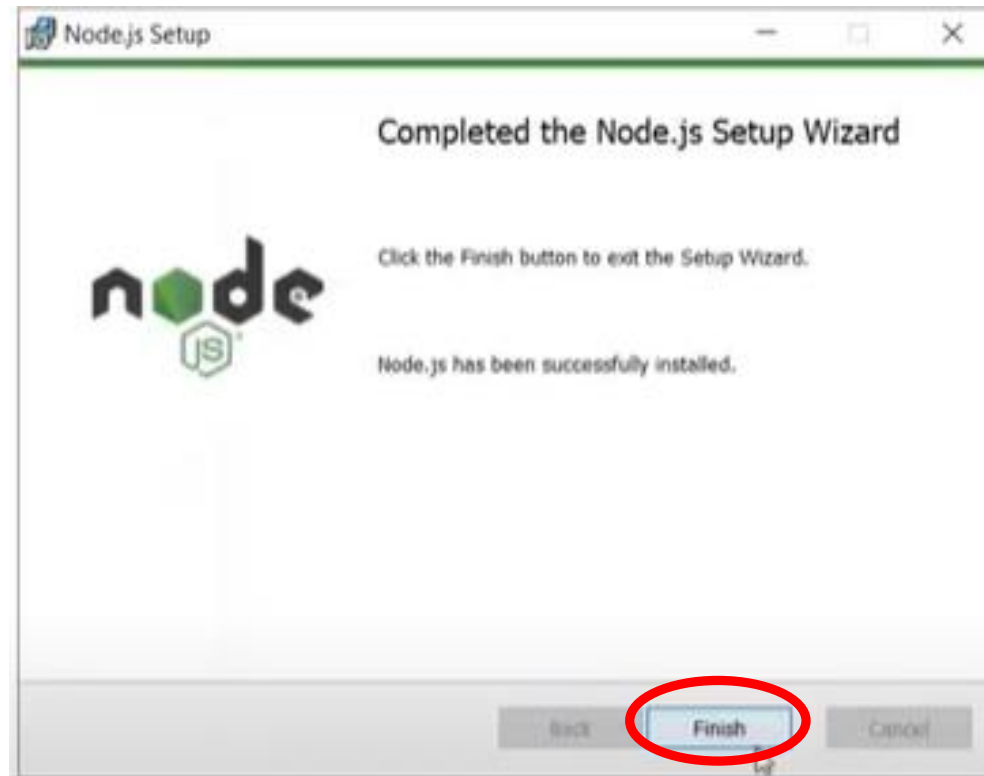

Só ativamos se quisermos realizar alteração no sistema operacional. Essa instalação demora muito...

Instalando Node no Windows10

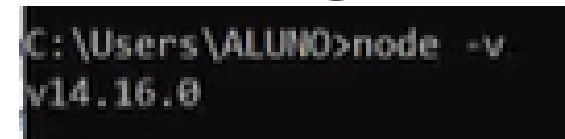

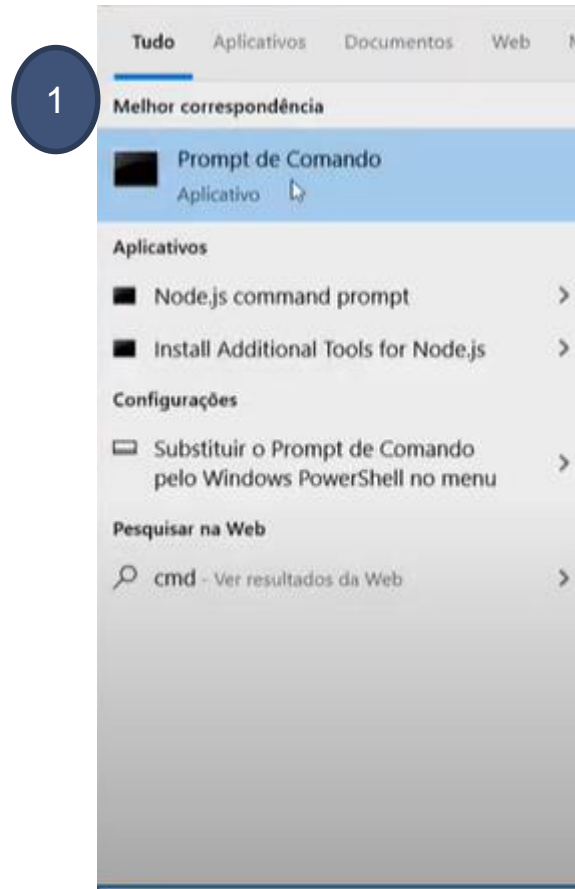

Instalando Node no Windows10

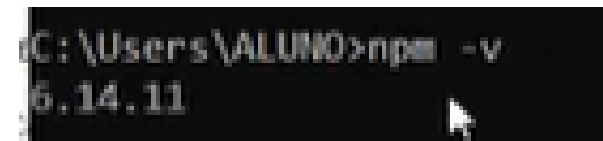

Vamos verificar se foi instalado...

- Ir para o prompt de comando
- Digitar:
 - ▷ `node -v <ENTER>`
 - ▷ `npm -v <ENTER>`

A screenshot of a Windows command prompt window. The prompt is 'C:\Users\ALUNO>'. The command 'node -v' has been entered, and the output 'v14.16.0' is displayed. A blue circle with the number '2' is overlaid on the top left of the terminal window.

A screenshot of a Windows command prompt window. The prompt is 'C:\Users\ALUNO>'. The command 'npm -v' has been entered, and the output '6.14.11' is displayed. A blue circle with the number '3' is overlaid on the top left of the terminal window.
